

29 October 2009

Company Announcements Office  
ASX Limited  
Level 4, 20 Bridge Street  
SYDNEY NSW 2000

Dear Sir/Madam

**ACTIVITIES REPORT FOR THE QUARTER  
ENDED 30 SEPTEMBER 2009**

**HIGHLIGHTS**

Steady progress continued through the quarter for the completion of a Definitive Feasibility Study during the first half of next calendar year.

Phase Two sinter testing was completed with very encouraging results

**CORPORATE**

The Red Hill Iron Ore Joint Venture (RHIOJV) is managed by API Management Pty Ltd (API), a company equally owned by Aquila Resources and AMCI Inc. API has other iron ore interests in the West Pilbara and is advancing these interests together with the RHIOJV as the West Pilbara Iron Ore Project (WPIOP). Currently the RHIOJV represents nearly 85% of the resources the subject of the current feasibility study managed by API and referred to as the West Pilbara Iron Ore Definitive Feasibility Study – Stage One.

Red Hill Iron Limited (RHI) holds a 40% interest in the RHIOJV which will reduce to 20% upon the project delivering first ore to customers. API is lending RHI all of its share of project costs repayable only out of future revenue surpluses. RHI had the additional option of being able to convert its project interest to a 2% FOB royalty at any time until first delivery of ore to customers.

## **RED HILL IRON ORE JOINT VENTURE**

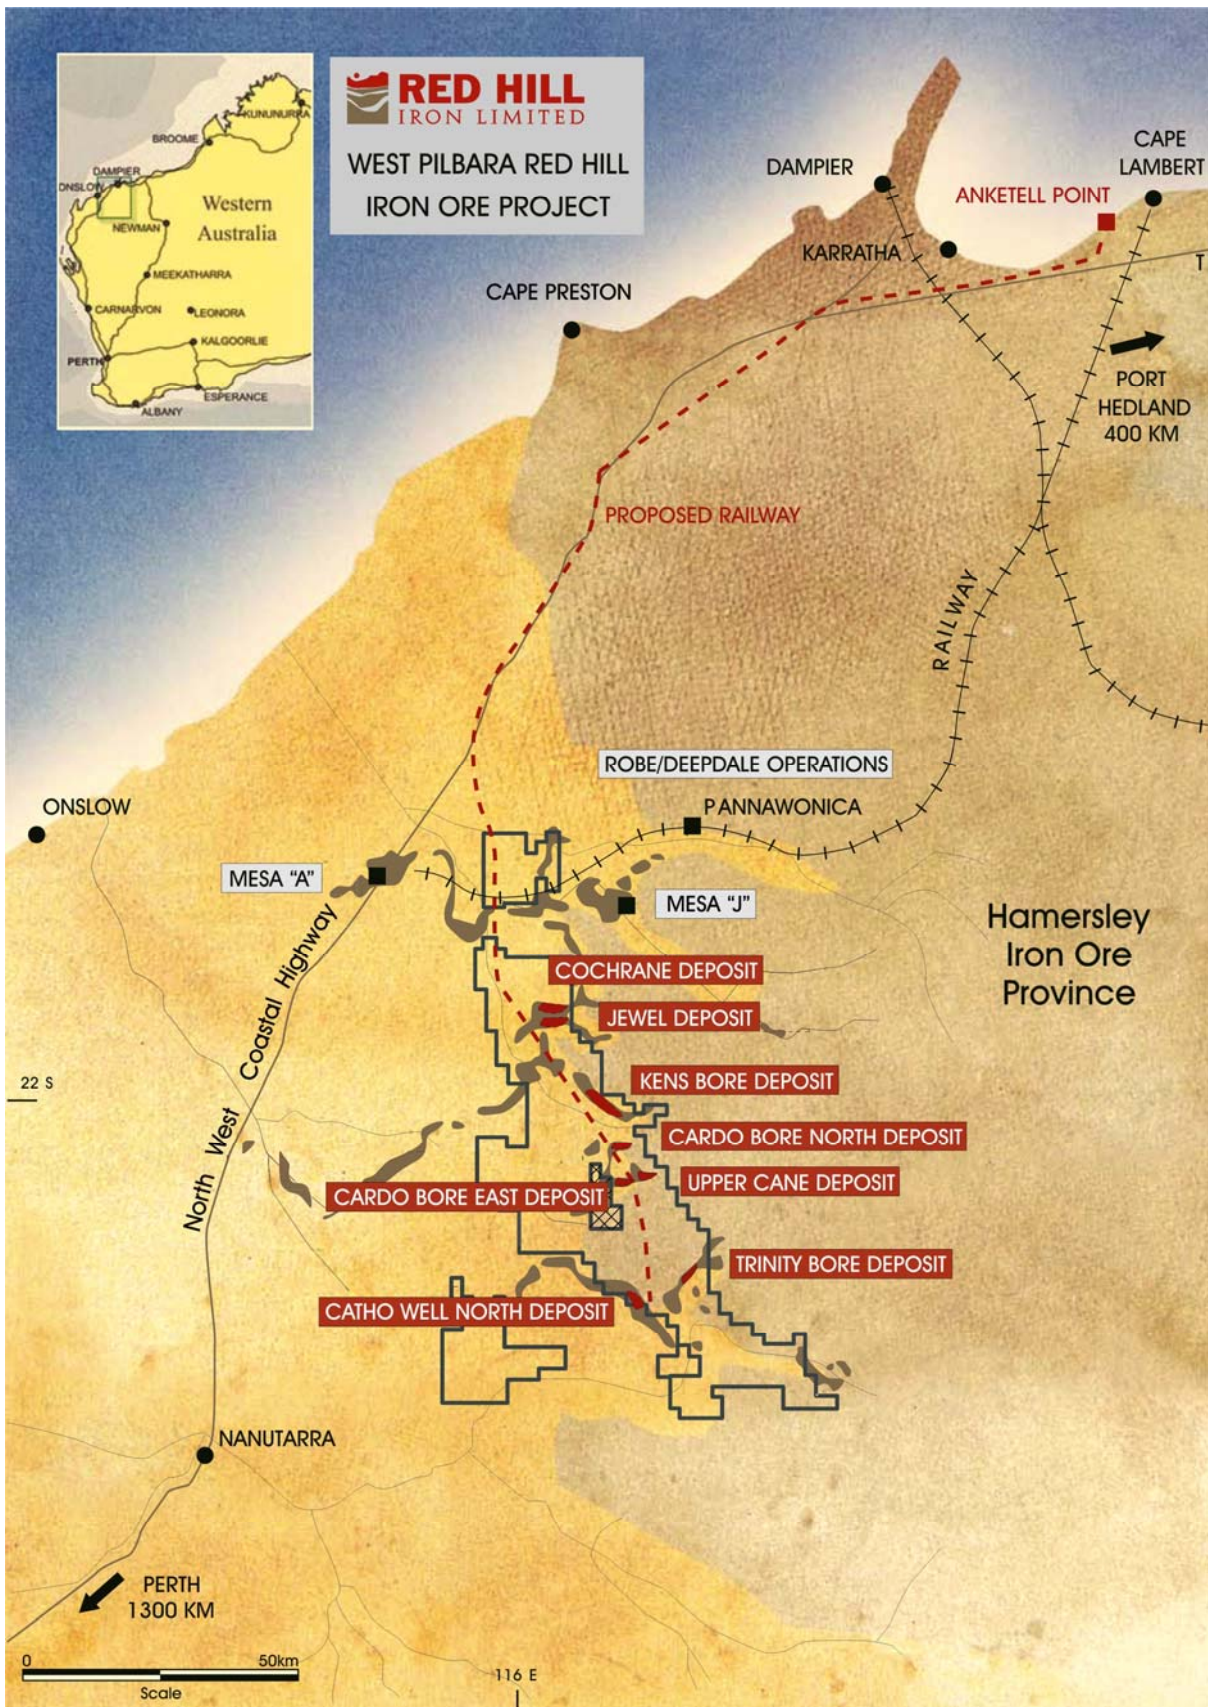

The Red Hill Iron Ore Joint Venture (RHIOJV) is advancing towards the completion of a Definitive Feasibility Study which envisages the blending of project channel iron ores with those of the adjacent Mt Stuart Joint Venture in which Red Hill Iron has no ownership. The intention is to produce a sustainable even blended product so that customer requirement for continuity of quality can be maintained throughout Stage One of the West Pilbara Iron Ore Project. It is anticipated that the RHIOJV will provide some 80% of the annual production which translates to an expectation of some 4.5 million tonnes as RHI's share of production for at least 13 years. Intense marketing studies are being carried out to ensure that this blended product will receive ready customer acceptance. Negotiations with the other product owners (Aquila Resources Ltd. and AMCI Inc.) are in train with a view to the establishment of an overall marketing arrangement for all iron ore produced by the RHIOJV.

The integrated management team which is responsible for the engineering and mine processing components of the Study was expanded during the quarter. The project Environmental Scoping Document was approved by the State Environmental Protection Authority (EPA) and work continued with the preparation of the Public Environmental Review (PER) for the proposed mine in accordance with that approval. Consultations with the relevant government and community stakeholders regarding the project plans and its potential impacts continued.

Exploration will continue with the intention of identifying additional CID resources .A review of the Kens Bore CID was undertaken during the quarter and a further 70 reverse circulation holes are planned which will allow the upgrade of resource status and may expand tonnage.

Yours faithfully,

Joshua Pitt  
Director

## Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
